WIRELESS DEVICE METHOD AND APPARATUS WITH DRAWING COMMAND THROTTLING CONTROL

Abstract Of The Disclosure

A wireless drawing command transmitting unit includes a wireless transmitter operative to transmit drawing commands associated with a master image renderer. A wireless drawing command receiving unit includes a wireless receiver operative to receive the transmitted drawing commands and generates an image for a display device using the drawing commands transmitted wirelessly. In addition, the wireless drawing command receiving unit transmits drawing command throttle data back to the wireless drawing command transmitting unit to throttle transmission of drawing commands that are sent by the drawing command transmitting unit. A method for providing wireless display of images is also disclosed.
